

Manufacturer's Declaration

In accordance with PPWR (EU) 2025/40 on packaging, replacing Directive 94/62/EC

MANUFACTURER: TALPA, spol. s r. o.
Trutnovská 301
CZ - 542 42 Pilníkov
IČO: 47473894 DIČ: CZ47473894

EKO-KOM registration number (packaging waste sorting and recycling system): EK-P00030019

PRODUCT IDENTIFICATION DATA:

Name: Wooden packaging material - plain wooden pallets, in returnable, non-returnable and EUR versions, of various dimensions and load capacities, cover plates, crates and packaging lathing intended for use as transport or group packaging.

Material used: coniferous wood (spruce, pine) and deciduous (without soft rot) - FOR50, steel screw nails, convex or smooth

Intended use: for loading packaged and unpackaged material, which due to its properties allows loading and can withstand stacking - for ensuring safe transport and handling of materials and goods

Packaging category according to PPWR: Transport and reusable packaging

THE MANUFACTURER HEREBY DECLARES:

- The product complies with Regulation (EU) 2025/40 of the European Parliament and of the Council of 19 December 2024 on packaging and packaging waste, amending Regulation (EU) 2019/1020 and Directive (EU) 2019/904 and repealing Directive 94/62/EC.
- The product meets the essential requirements of Council Directive No. 92/59/EEC of 29.6.1992 on general product safety, replaced by Directive 2001/95/EC of the European Parliament and of the Council on 14.1.2004. As of 13 December 2024, this directive (and Act No. 102/2001 Coll.) is replaced by the new EU Regulation 2023/988 on general product safety (GPSR)
- The product is safe under normal conditions of use
- Pallets may only be used for purposes that are in accordance with the technical documentation and relevant ČSN, they are not intended for sliding manipulation, but only for manipulation using fork-lift handling equipment
- Material placed on pallets must not exceed the maximum load capacity of the pallet
- The load capacity of pallets is guaranteed when the material is evenly distributed on the pallet and when the pallet is placed on a flat and solid surface (on the ground)

- Care must be taken to ensure even distribution of material, especially when placing pallets on shelves
- The loaded material must not interfere with the loading holes
- The manufacturer is not liable for defects caused by improper Handling of the products

PPWR COMPLIANCE SPECIFICATIONS:

- **Packaging minimization:** The design and construction of the pallet (board thickness, dimensions) have been optimized to the necessary minimum to ensure the required load capacity and safety during transport, avoiding material waste
- **Recyclability criteria:** The pallet is designed to be 100% recyclable at the end of its life. Structural joints allow for easy separation of the wood mass from the fasteners.
- **Reusability :** The pallet is designed as reusable packaging, meets the requirements for durability for multiple cycles and is repairable.
- **Absence of hazardous substances:** The product complies with the limits in accordance with the REACH regulation. The wood has not been chemically treated.

THE MANUFACTURER FURTHER DECLARES :

- Its products are not coated or treated with chemicals and therefore are not subject to the obligations set out in "Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals, establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93, Commission Regulation (EC) No 1488/94, Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC 93/105/EC and 2000/21/EC".
- Pallets are not a specified product within the meaning of Section 12 of Act No. 22/1997 Coll., on technical requirements for products, and therefore a "Declaration of Conformity" is not issued for this product. Also, no legal regulation imposes an obligation to issue technical data sheets for our products.
- We manufacture pallets according to technical documentation, which takes into account all requirements of ČSN standards for pallets; technical documentation is available for inspection
- The documentation includes technical drawings for individual types of pallets; The technical design of individual types has been agreed with the customer.
