

EU Declaration of Conformity

Doc. No. 2026/001

*issued in accordance with Article 39 and Annex VIII of Regulation (EU) **2025/40** of the European Parliament and of the Council on packaging and packaging waste (**PPWR**)*

MANUFACTURER:

T A L P A , spol. s r. o.

Trutnovská 301, CZ - 542 42 Pilníkov

Company ID (IČO): 47473894 | VAT ID (DIČ): CZ47473894

EKO-KOM Registration Number: EK-P00030019

PRODUCT (PACKAGING) IDENTIFICATION DATA:

- **Name:** Wooden packaging / transport material – flat wooden pallets (reusable, single-use, atypical, and EUR pallets of various sizes and load capacities for industrial use), treated in accordance with the ISPM15 standard – HT / CZ – 0356.
- **HS Code:** 4415 20 – Pallets, box pallets and other load boards; pallet collars of wood.
- **Material used:** Softwood (spruce, pine) and hardwood (free of soft rot) – recycling code FOR 50; steel nails (screw, convex, or smooth).
- **Intended use:**
 - o For loading packed and unpacked material whose properties allow loading and withstand stacking.
 - o To ensure safe transport and handling of material and goods.
- **Packaging category according to PPWR:** Transport and reusable packaging.

MANUFACTURER'S DECLARATION:

The manufacturer hereby declares under its sole responsibility that the packaging identified above is in conformity with the relevant Union harmonisation legislation:

1. **Regulation (EU) 2025/40** of the European Parliament and of the Council of 19 December 2024 on packaging and packaging waste, amending Regulation (EU) 2019/1020 and Directive (EU) 2019/904, and repealing Directive 94/62/EC (PPWR).
2. **Regulation (EU) 2023/988** of the European Parliament and of the Council of 10 May 2023 on general product safety (GPSR) and Czech Act No. 387/2024 Coll., on General Product Safety.

SPECIFICATION OF COMPLIANCE WITH ESSENTIAL REQUIREMENTS (PPWR):

- **Packaging minimisation** (Article 9 / Annex IV): The design and construction of the pallet (board thickness, overall dimensions) have been optimised to the minimum necessary to ensure the required load capacity and safety during transport, thereby preventing material waste.
- **Recyclability criteria** (Article 6): The pallet is designed to be 100% materially recyclable at the end of its life cycle. The structural joints allow easy separation of the wood mass from the metal fasteners.

- **Reusability** (Article 11): The pallet is constructed as reusable packaging. It meets the physical durability requirements for multiple rotations within logistics chains and is technically repairable.
- **Absence of hazardous substances** (Article 5): The product complies with the limits in accordance with the REACH regulation. The manufacturer confirms that the material does not contain substances of very high concern (SVHC) or heavy metals exceeding the permitted thresholds. The wood has not been chemically treated (exclusive heat treatment (HT) in accordance with ISPM15 was applied).

CONDITIONS FOR SAFE USE AND HANDLING:

- The product is safe under conditions of normal and intended use.
- Pallets must be used in accordance with the relevant ČSN / EN technical standards for pallets. They are not intended for dragging along the ground, but exclusively for handling using forklift trucks or pallet jacks.
- The material loaded onto the pallets must not exceed the maximum declared load capacity of the pallet. The load capacity is guaranteed under conditions of uniform load distribution and when the pallet is placed on a flat and firm base.
- Particular care must be taken to ensure even distribution of the material when placing pallets into racking systems. The loaded material must not obstruct the entry openings for the forks.
- The manufacturer is not liable for defects and damages caused by improper or unsuitable handling.
- Production is carried out according to internal technical documentation that takes into account the requirements of ČSN standards, which is available for inspection at the manufacturer's premises. The technical design of atypical specifications is always agreed upon with the customer in advance.
